

Department of Toxic Substances Control
Public Comment Period Extended
July 14, 2006 to August 14, 2006
Reaction Products, Richmond, California
Public Meeting, Wednesday August 2, 2006 at 7:00-9:00 pm

The public comment period for the Draft Removal Action Workplan (RAW) and the Negative Declaration for the Reaction Products site located at 840 Morton Street, Richmond, California has been extended to August 14, 2006. **A public meeting discussing the Draft RAW will be held on Wednesday August 2, 2006 from 7:00-9:00 pm at the Parchester Community Center, 900 Williams Drive, Richmond, California.** Past investigations indicate that there are volatile organic compounds (VOCs), including trichloroethylene (TCE) and 1, 1-dichloroethene (1, 1-DCE) in the groundwater at the site. The Draft RAW proposes to inject hydrogen releasing compound and bio-inoculums (bacteria) into the groundwater to reduce the contaminants to below the cleanup goals. Copies of the Draft RAW, including the Negative Declaration, are available for public review at the information repositories listed below:

Richmond Public Library
